"Sweelinck Estates"

This classical Victorian townhouse, built in 1898, is renovated into three spacious and fully equipped corner apartments, each with large a terrace. The owner is a local architect. She fell in love with this stylish old townhouse when she noticed that each floor has a unique extension, providing space for a terrace for the floor above.

The neighbourhood and surrounding area are both affluent and safe. The street is quietly quaint and lined with trees, that fruit berries in autumn. The green parakeets love to roost in them. The house overlooks the crossing of two well preserved residential streets, built at the end of the 18th century. The crossing feels like a little square.

For more information you can check the website of the Sweelinck Estates.
